

OMNIA

From detail
comes beauty

VEKA

OMNIA makes it simple.

Your home has its own character. Its own style.
Its own way of living.

OMNIA makes it simple to enhance every part
of your home with windows and doors designed
as one coordinated suite.

Bringing together slim profiles, balanced
proportions and a thoughtfully engineered
design to help create bright, comfortable and
secure living spaces.

Whether you are updating one room or
transforming your whole home, OMNIA windows
and doors works seamlessly together to
support a consistent look throughout.

Beautifully designed. Carefully engineered.

Designed for modern living.

OMNIA combines the clean, understated look homeowners love with the practical performance homes need today.

- Slim sightlines for more natural light.
- A flush, refined finish inside and out.
- Styles suited to contemporary homes, character cottages and everything in between.
- Thoughtful detailing that enhances the look of your property.

It's design that works with your home - and your lifestyle.

Beauty in form.

*Slim. Elegant. Stylish.
With a sleek profile
and a flush fit.
Inside and out.*

Everything about OMNIA is beautifully designed.
Corners that emulate traditional timber joints.
Trims and beadings that echo contemporary styles.
Clean, uncluttered lines that are elegant and understated.
From tilt and turn windows to French doors.

All with more glass and less frame.
So you can bring light and air into your home. Beautifully.

We've designed more than five decades of experience and expertise into OMNIA.

Beauty in function.

Comfort you can feel all year round

OMNIA has been designed and tested to ensure it meets industry standards when installed and maintained correctly.

- U-Values from 0.75 W/m²K with triple glazing
- Double rebated frames to help reduce wind and rain ingress
- Smooth operation with compatible, quality-tested hardware
- Tested to recognised standards for weather performance, thermal efficiency and security

Every detail considered.

With OMNIA, the real beauty is in the manufacturing details.

Every detail of OMNIA has been thoughtfully engineered to create a comprehensive double flush suite, bringing together proven VEKA features with refined design enhancements that support smoother installation and dependable long-term performance.

Invisible mullions

OMNIA windows can be constructed with invisible mullions, maintaining a sleek and unobstructive aesthetic both inside and out.

Mechanical jointing

OMNIA provides versatility and compatibility with leading jointing methods, offering enhanced structural integrity and long-lasting performance.

Rider block mechanism

Streamlines the assembly process, saving time and effort during installation.

A detailed cross-section diagram of a window frame assembly. The diagram shows a multi-layered frame with a central glass pane. Callout lines with circles point to specific features: the top frame depth, the glass pane, the beading options, the PCE gasket, and the double rebates at the bottom. The frame is shown in a light grey color, while the glass is a light blue-grey. The bottom part of the frame is shown in a cutaway view, revealing internal structural details.

70mm frame depth

A quick and simple retrofit solution offering greater flexibility, with hassle-free replacements or upgrades without extensive modifications to existing structures.

U Value as low as 0.75

OMNIA will deliver exceptional thermal efficiency, enhancing overall comfort and wellbeing of building occupants, while also contributing to sustainability efforts and regulatory compliance.

Beading options

Provides design flexibility to accommodate diverse aesthetics preferences, ensuring your windows and doors seamlessly blend with the surrounding environment.

PCE gaskets included

The PCE is co-extruded to the OMNIA profile during the manufacturing process, streamlining workflows and ensuring consistent quality across all installations.

Double rebates

The ultimate performance in sealing the aperture against the elements, providing superior weather resistance and durability.

Everything works together beautifully.

With OMNIA, you can complete a full project with one co-ordinated window and door system.

This helps maintain consistency across your home – in the finish, in the sightlines, and in the overall aesthetic.

- Casement windows
- Tilt & Turn windows
- French doors
- Residential doors

Every option is designed to complement the others, helping you bring together a unified look throughout your property.

One system. One suite. One seamless finish.

Feinstruktur

Style with strength

LUXURY APPEARANCE. PRACTICAL DURABILITY.

Feinstruktur [fine structure] is a contemporary foil available across the OMNIA suite. It has a finely textured surface that delivers the premium, modern appearance of aluminium, combined with the thermal efficiency benefits of PVCu for energy conscious homes.

Hard wearing and robust

Feinstruktur has a hard-wearing surface designed to offer protection against knocks, scratches, and stresses during transportation, installation, and life in the home.

Resists harsh chemicals

This durable, refined finish is engineered to resist chemicals, including cleaning agents and alcohol, helping to simplify maintenance.

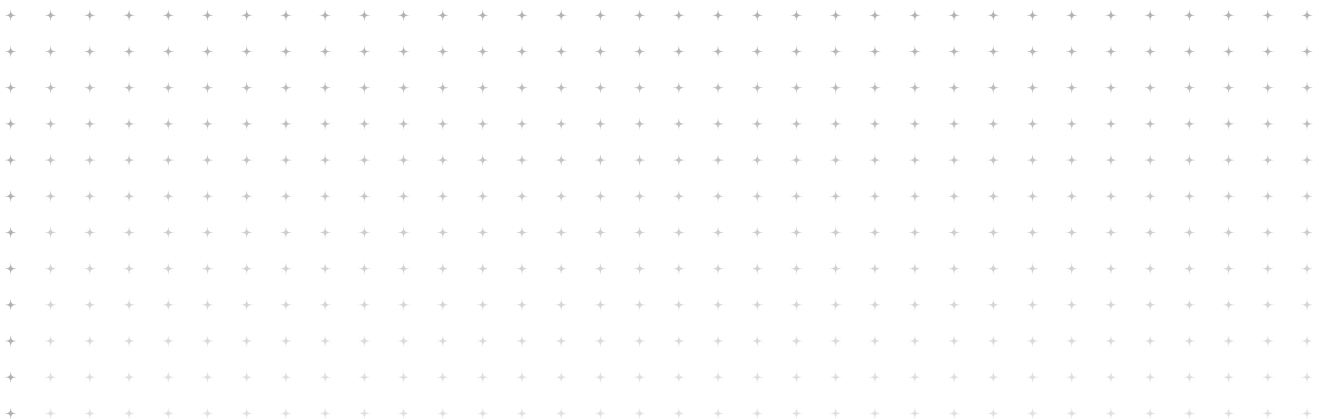

Reduced thermal absorption

The infrared-reflecting pigments in Feinstruktur help reduce thermal absorption, supporting frame stability by limiting the risk of warping or twisting.

Sustainable and recyclable

Feinstruktur is manufactured using materials that can be recycled at end of life.

Feinstruktur can help give your home a more design-driven look - while blending with the rest of the OMNIA suite.
